FORTY YEARS SOUGHT FOR!

No Soot! No Clinker! No Gas! No Nuisance!

THE GREENE Soft Coal Cooking Stove!

This New Stove consumes all varieties of Bituminous Coal without forming Clinkers, Making Soot, Creating Gas or Nuisance of any kind, and is especially adapted to burn Slack Coal or Culm, Wood, Corn or Corncobs perfectly. It is a good COOKER, BAKER and BROILER; Quick in Operation, and possesses the merit of GREAT ECONOMY. In fact, it is perfection in the way of a Cooking Stove. It is easily cared for—the grate is never dumped, no ashes to sift or clinkers to remove, is cleanly in its operations, and of GREAT DURABILITY.

THE ANNEXED TESTIMONIAL IS ONE OF THE MANY RECEIVED.

From H. S. Chamberlain, Esq., President of the Roane Iron Company.

CHATTANOOGA, Tenn., Jan'y 11, 1880.

Gentlemen:

Hearing the Greene Stove highly spoken of as being very economical in fuel, and satisfactory for family use, I some months since procured a No. 9 Cooking Stove of this pattern, and after thorough trial find it even better than I had expected. I have tested it carefully with all sorts of coal found in this section, including the Tennessee, Dado, Soddy, Knoxville, Daisy and Rockwood, and find that any of these can be burned, either fine or coarse, without clinker and with very great satisfaction. The stove is emphatically a smoke consumer, in which all gases usually wasted up the chimney are utilized, and in point of economy I am within the mark when I say the amount of coal consumed for ordinary cooking and other kitchen purposes is less by one-half than in any other stove with which I am acquainted in the market. Its cooking qualities are supremely excellent. It is the only soft coal burner known to me which can be used pleasantly and economically in the kitchen, and being quickly heated and as free from dust and dirt as a wood stove, must, as soon as its merits are known, take the place of all other varieties. I am very glad to say this much for your stove, as it is gratifying to see an effort to apply valuable scientific principles in household economies meet with such merited success.

I am very truly yours,

H. S. CHAMBERLAIN.

This stove meets a want long felt in those regions where Bituminous Coal is a prevailing fuel. As this important invention, covering the Eastern and Western Continents, is the property of a Newark Company, Citizens having friends in the Bituminous Coal burning regions are invited to apply to the Company for Circulars and Testimonials, and thus extend the knowledge of this Newark Industry.

PREFACE.

This Fifty-fourth volume of the Newark City and Business Directory appears with much increased matter in all its departments. Every effort has been made to record that which might be of interest relative to the City, State and Federal Government. The population, about 160,000, is still on the increase; in every direction improvements are going forward, business is active, and prosperity and plenty abounds. Cheap transit and the free highway between New York and Newark has its beneficial effects. In varied manufactures, business, social relations, the near proximity to the great metropolis of the nation, renders Newark in every respect a desirable place of residence as well as for business. The facilities for manufacturing are superior to any, located twenty minutes distance only from the great centre of trade in New York.

That the Newark Directory is appreciated as a representative work and as a medium of information, is evident from the orders and letters of inquiry, constantly received, relative to the various interests of the city and its inhabitants. To extend its usefulness, it is placed in hotels, ocean steamships, foreign exchanges and other important places, see Table of Contents here following.

The desire to shun publicity still exists among those who have no sympathy with the record of a city directory—except to the receiving needed information therefrom—all are cordially invited to communicate with the Directory office any omissions or discrepancies, as every citizen is interested in having all recorded as they should be.

A BUREAU OF INFORMATION has long been established at the Directory office. A Directory Register for NEW ARRIVALS, also CHANGES IN BUSINESS AND RESIDENCE MADE THROUGHOUT THE YEAR, that persons may readily be found—is kept for public reference. All are invited to send postal of such information to the above office. Information gladly imparted.

A LARGE COLLECTION OF DIRECTORIES OF PRINCIPAL CITIES is kept for public reference.

Maps of Newark and of various cities of Essex County, also of New Jersey—pocket edition. Also Newark Street Guide and Hand Book. Also Business Directory—pocket edition, etc., may be obtained at the Directory office.

 **WANTED**—Copies of Holbrook's Newark City and Business Directory of 1882 issue are wanted at the Directory office. Please communicate.

THE STREETS OF NEWARK.

The streets of Newark, as generally laid out, run a north-easterly and south-westerly, and a north-westerly and south-easterly course. With rare exceptions do they run true to the compass. A portion of Broad street, from Central avenue to State street, runs direct north and south. Park place, also New Jersey Railroad avenue, directly north-east and south-west. Springfield avenue about east and west. Bloomfield avenue about a north course.

The streets are numbered generally from northerly to southerly, and from No. 1 consecutively. Those streets running from a main thoroughfare, either easterly or westerly, are numbered from the main street as their source of beginning.

LOCALITIES ROUND ABOUT NEWARK.

Like as in other cities, custom has divided Newark into localities, and while the city authorities recognize but one name—Newark—to all territory within its boundaries, citizens not only make use of old names, but introduce names that are new, especially so in those sections remote from the central portion of the city. Also, streets and avenues whose names have been changed are still known by their original names, viz.:

NORTH NEWARK, or Woodside. See Woodside.

WOODSIDE, that portion lying in the extreme northern part, northerly of Mt. Pleasant Cemetery, in the Eighth ward, $1\frac{1}{2}$ miles in extent from the Cemetery and $2\frac{1}{4}$ miles distant from centre of city; formerly a township, by act of the Legislature annexed to the city of Newark. On line Broad street and Belleville horse cars.

ROSEVILLE is known as that portion lying in the north-westerly part of the city, west of the Morris canal, between Warren street and Bloomfield avenue, in the Eleventh ward, $1\frac{1}{4}$ miles distant from centre of the city, on line of Orange horse cars and Delaware, Lackawanna & Western Railroad.

Albo-Carbon Light

THE PERFECTION OF GAS LIGHTING,

Saves More than One-half the Cost of Gas.

Cluster Lights

From 100 to 2,000

CANDLE & POWER,

—EQUAL—

In Effect to the Electric.

Brilliant,

Economical,

Steady.

THE PERFECTION

OF LIGHT

FOR THE HOME.

Our 1, 2 and 3 Light Generators can be attached to any gas fixture.

AN IMPROVED SYSTEM OF LIGHTING

Churches; Halls, Public Buildings, Stations, Shops, Stores,

AND PRIVATE HOUSES.

By our method of enriching the gas, we are enabled to give *three times the light* obtained by burning it the usual way, and to give a *soft, steady, white light*.

There are many thousands of them in use in England and on the Continent, and they are being rapidly adopted in this country for every place where a brilliant, steady, pleasing and always reliable light is needed.

Prof. Stevens, A.M., LL.D., of Girard College, Philadelphia, writes: "Regarding candle power, the carbonized gas is equal to 3.25 times the common gas."

JAMES A. COE & CO.

The Foye Letter File, Cabinet & Index Co.

ALWAYS READY!

+ CABINETS. +

Having made great improvements recently in our Cabinets, as well as in our Files, they are now considered the most *Complete Cabinet* in the market, possessing the great advantages obtained in our *File*, which is acknowledged to be the simplest and most complete File ever offered to the public.

We make Cabinets of all sizes and in any style of wood that may be required.

POINTS: READ AND OBSERVE.

THE FOYE LETTER FILE, is acknowledged to be the most complete file in use, possessing important features not contained in any other file in the market. You can operate the *Foye Letter* or *Bill File* with the arm as readily as with the hand, thus giving the perfect freedom of both hands to turn over more rapidly the paper contained therein, and remove the paper you want without displacing the others. (See cut above.)

THE FOYE FILE has a *Strong Clip and Automatic Springs*, which gives firm pressure, holding *all papers, large or small*, in place, without stopping to *adjust* any springs as in other files.

THE FOYE FILE is made of Black Walnut and has a strong cover, thus protecting its contents from dust, and gives it the privacy of your ledger, when exposed on your desk.

TRANSFER CASES.

Our Improved Patent Transfer or Filing Cases are without exception the best case offered, for the filing away of *papers permanently*. They are made of wood, covered—covered with marble paper, finished like a book on the back, have *two Springs* attached to the lid that holds the papers into their place, so that they cannot become disarranged. The lid is securely fastened on three sides, so that no dust can get into the papers.

THE AUXILIARY FIRE ALARM.

**Valuable Time Saved in Sending Out
An Alarm of Fire.**

In case of fire, valuable time will be saved in giving the alarm, if
you have an

Auxiliary Electrical Fire Alarm Box

Placed in your Store, Factory or Residence, by which you can pull
the nearest street Fire Alarm Box without leaving your
building, thereby saving much valuable time in
going to the street box, finding the key
and unlocking it to send
the alarm.

ON THE BREAKING OUT OF A FIRE, EVERY MOMENT OF TIME IS VALUABLE,

AND BY HAVING

THE AUXILIARY FIRE ALARM BOX

On your premises, an alarm can at once be sent out ANY TIME OF
NIGHT OR DAY, without hindrance from STORM or
any cause whatever.

THE AUXILIARY ELECTRICAL FIRE ALARM connects your
premises by wire, with the street Box, thus bringing the street Box under
your control for immediate use.

IT IS SAFE, CONVENIENT AND RELIABLE IN CASE OF FIRE.

IT IS NOW ON EXHIBITION AT THE

❧ DISINFECTANT. ❧

PREVENTION BETTER THAN CURE.

THE GREATEST OF ALL KNOWN PREVENTIVES OF CONTAGIOUS DISEASES.

THE ✦ EGYPTIAN ✦ POWDER,

MANUFACTURED BY

H. S. MILLER & CO.,

ON PASSAIC RIVER, - - - NEWARK, N. J.

This is no new thing, having been used for many years against almost every Disinfectant known to science; has been found to have no equal as a sure, safe and strong Disinfectant.

AS A DISINFECTANT

It is invaluable in cases of Infectious Diseases; also for the disinfection of Cess-Pools, Water-Closets, Drain Pipes, Stables, Slaughter Houses, Marine Vessels, Cellars, Saddle Sores, Gauls, etc., etc. In fact, it cannot be used amiss in any place that produces foul odors and breeds disease. If properly applied, it is a great protector of plants against insects.

THE EGYPTIAN POWDER

Is put up in convenient form; its mode of application is simple, though powerful in its action, continuous and lasting, and being a very powerful Disinfectant, but a small quantity is necessary to obtain the desired effect.

A POSITIVE DESTROYER

Of Moth, etc. If a small quantity be placed in a chest, trunk, box or any receptacle wherein Woolen Goods, Furs, etc. are kept, it will be found to be sure death to any moth present, as well effectually preventing others from making their appearance.

THE EGYPTIAN POWDER

Is also a sure exterminator and eradicator of fleas and vermin of all kinds from domestic animals. The price at which these goods are placed upon the market defies all competition. They are within the reach of every citizen, and no one has the right to cast aside so valuable an article.

Do Not Take Up Your Carpets !

THE NEW JERSEY CARPET RENOVATING CO.

Cleans all Carpets (except Ingrain) by the **RENOVO PROCESS**, without taking from the floor, and without making any dust or disturbance. The furniture need not be removed, as we do this as needed, and as we proceed with our work, and replace again at once. When we leave the Carpet is not only clean, but the nap is raised, and your Carpet has its colors renewed, the moths and germs all taken out with the dirt, in fact, your Carpet is clean and looking as bright as when new, because it is clean. We warrant our work to give satisfaction. We have cleaned many thousand yards of Carpets in Newark, Orange and East Orange the past year, and the names of our patrons and many certificates can be seen at our office.

Following are the names of a few parties in this vicinity who have tried this process with satisfaction, and have kindly given consent to use their names as reference:

ELECTION OF PRESIDENT AND VICE-PRESIDENT OF THE UNITED STATES BY THE ELECTORAL COLLEGE.

"The voters elect in the several States as many persons as there are members of Congress, known as Electors. These electors meet at the State Capitols upon a fixed day and cast the electoral vote of the State for President and Vice-President. Copies of this vote are sent by messenger to the United States Secretary of State and to the President of the United States Senate, and opened and counted at a joint meeting of both houses of Congress in February following the election. The persons receiving the majority of the electoral votes for the two offices are declared duly elected President and Vice-President of the United States for four years from the ensuing 4th of March. In case no party has a majority of the electoral vote, the election is made by the House of Representatives alone, each State casting one vote (which is controlled by a majority of the Electors), and a majority of all the States is necessary to a choice."

No Senator or Representative, or person holding an office of trust or profit under the United States is eligible for an Elector.

over \$30 and not exceeding \$40, forty cents; over \$40 and not exceeding \$50, fifty cents. These rates took effect January 1, 1886.

No fractions of cents to be introduced in an order.

United States Treasury notes or National Bank notes only received or paid.

Post Money Orders, for sums not exceeding \$100 each order can be obtained at the principal offices throughout the country. The use of these orders by persons who desire to make remittances by mail is far preferable to sending money, even when the letter containing it is registered. By the money order system *absolute security* against loss is obtained. Money orders are good for one year from the date of issue. In case of their loss, no charge is made for the issuing of duplicates. Persons sending money orders should be careful never to send them in a letter which contains the name of the person from whom they are sent. This is necessary in order to guard against loss in case the letter should fall into improper hands, money orders *never* being paid to any person who cannot tell the name of the party to whom they were issued.

Postal notes, for the transmission of small sums, under five dollars (from 1c. to \$4.99), on which a fee of three cents shall be charged, were issued about October 1, 1883.

As letters are frequently dropped in the letter-boxes insufficiently paid, persons who are not certain in regard to weight, rates, etc., would do well to inquire of the Stamp Clerk before mailing them. If sent to the Dead Letter Office they are delayed two or three mails.

The applicant must, in all cases, write his own given name and surname in full. When the given name of the payee is known it should always be stated in full; otherwise, initials may be used. The given names of married women must be stated and not those of their husbands. For example: Mrs. *Mary* Brown must not be described as Mrs. *William* Brown.

Names of parties, places and streets, as well as numbers and amounts, should be written *in full* and in the plainest manner possible. *A money order must not be made payable to more than one person or firm.*

The object of this institution is to reform boys and girls committed by the Police Justices, for truancy and such conduct as indicates they are beyond the control of parents. It is a public institution, supported by the city, taking children viciously inclined, and inuring them to habits which tend to lives of usefulness. The Home is in no sense like a prison, but the intent is to make it what its name implies, a "home" for wayward children.

The Academy was organized in 1775, incorporated in 1795, and rechartered in 1855. It is controlled by a Board of Trustees, elected by the stockholders.

Its object is to afford to the youth of this city and vicinity a complete and thorough course of study, as a preparation for the College, the Scientific School, or for business life. The Primary Department prepares pupils for the higher classes, so that a boy may enter the Academy at the very commencement of his school course, and finish there his entire preparation.

There are two courses of study, the Classical and the Scientific, each extending through four years. Pupils finishing satisfactorily either of these courses are entitled to the diploma of the Academy. The Academy has a fine gymnasium thoroughly equipped and furnished; and gymnastic exercise, under a trained instructor, forms a part of the daily school work.

THE CROCKFORD PATENT TUBULAR CIRCULATING STEAM GENERATOR

is manufactured and applied to Steam Boilers by the
Crockford Steam Generator Co. of the United States,
93 & 95 MECHANIC STREET, NEWARK, N. J.

They desire to call the attention of users of steam to a few of the merits and advantages of this valuable invention:

It will Save from 20 to 40 per cent. of fuel.

It will increase Boiler Capacity 25 to 50 per cent.

The Circulation is positive and rapid,

Thus generating a pure, dry steam.

Prevents Scaling, Blistering and Explosions.

Saves time and labor by keeping boilers clean.

It insures equal expansion and contraction.

Requires no valves. No attention. Is easily applied.

Simple in Construction. The most effective in use.

We have in our office a working model by which we demonstrate our claims, and we cordially invite all interested to investigate.

We refer to a few parties who are daily using our Generators with entire success:
